

CPR (BLS) Certification Requirement Guidelines

For internal and student use.

All students are required to have current Cardiopulmonary Resuscitation (CPR) for BLS Provider (Basic Life Support of Healthcare Providers) certification.

- Certification must be obtained through an American Heart Association approved provider.
 - Search American Heart Association approved providers [here](#)
 - Select an in-person BLS Provider course
- *Certification through other providers will not be accepted (e.g. American Red Cross).*
- Only the in-person classroom option fulfills this requirement.
- Blended learning is not an option.
- Certification must be kept current through graduation.
