

Dear Partners,

Piedmont Healthcare has been working diligently to enhance academic partnerships to support the next generation of health care professionals. To this end, we've identified streamlining the clinical education process as an opportunity for improvement. We have decided to move forward with the clinical education platform, ACEMAPP, which will be utilized for all Piedmont Healthcare rotations effective Fall 2020.

ACEMAPP is a secure, online, onboarding, clinical rotation matching, and compliance management solution. While there is a fee involved for schools and students, we believe that the efficiencies and functionalities gained will be of benefit to all stakeholders. Please review the attached document to learn more about ACEMAPP's features and pricing.

Students and faculty must complete all school and clinical site requirements in ACEMAPP prior to participating in a clinical rotation with Piedmont Healthcare. Once students become compliant, they will be eligible to attend a clinical rotation at any facility to which they have been assigned. Students and faculty will be notified of changes in real time and receive alerts when their requirements, such as documents and immunizations, are close to expiring.

Because there is a fee involved for schools and students, we encourage you to share this information with anyone who will need to be involved in the decision to utilize ACEMAPP as soon as possible. The ACEMAPP team may contact you to learn how they can assist with your organization's needs moving forward.

We value your partnership and are committed to making this transition as seamless as possible for both you and your students. If you have any questions, or would like to get started at your school, go to acemapp.org/contact and complete the Contact Us form with your information. Select 'New Organization Account Access' as the Subject and let us know in the message that you are intending to connect with Piedmont Healthcare. You can also call 844-223-4292 and talk with an ACEMAPP Team Member.

Thank you,

Marcí Hanson
